Program's growth

- Most staff now regularly use Google Classroom and other G Suite applications
- Over 80% of students say Chromebooks were 'useful' or 'made a big difference' to their education
- Students also reported that the use of Chromebooks:
 - created greater engagement with their learning
 - promoted productive collaboration with their classmates
 - provided easier feedback from teachers
- Staff are continually developing their own understanding of and proficiency in the use of digital technology in the classroom

G Suite for Education

Educational benefits

- Gives online access to schoolwork - anywhere, anytime
- Promotes collaboration among students
- Provides easy communication between teachers and students, creating another avenue for timely feedback
- Allows for a Blended Learning approach, developing skills that will be used beyond the classroom

Chromebooks

Benefits of Chromebooks:

- Portable and easily fit into lockers
- Easy to maintain and service by IT department
- More affordable as a device
- Easy to manage in the classroom through tools such as Hapara and by limiting what can be loaded onto the device
- More flexible than tablets in the ways they can be used
- Good for accessing ebooks, decreasing need to carry textbooks between home and school
