# BYOD Portal 2020-2021

The Centre Com BYOD portal provides a secure process for parents to purchase and maintain high quality education accredited products for their families.

Our portal is unique for each school and is built with the school to meet your needs.

## Who chooses the products for my child's school?

Our Centre Com education specialists work with your school's staff to select the right products for the education program for your school. These are tested at the school to ensure they are the best priced products for your child.

## Why are education accredited products important?

Products accredited for education use are specifically designed for school education programs. They have robust features, increased battery life, extended warranties and service arrangements. They are authorised to have educational software installed.

Generally retail products are built to different specifications.

## How does the portal work and what do I need to do?

The online portal allows parents to purchase with products and accessories with a simple step-by-step process.

**\*\*Please choose **only one** warranty option if you decide to extend the standard 1-year warranty (recommended)**
