

Curriculum Framework Policy

POLICY STATEMENT

The curriculum at the college covers all the arrangements the school makes for students' development and learning. It includes the course content, student activities, teaching approaches, the way in which teachers and classes are organised and decisions on the need for and the use of facilities and resources.

Our school encourages students to strive for excellence in all of their endeavours. To achieve this, the school provides sequential teaching and learning programs that deliver a comprehensive, broadly based and inclusive curriculum.

Each year the school will map out its curriculum offerings. It will be in the form of a Curriculum Plan (**see Appendix A**).

GUIDELINES

- Glen Eira College will recognise and respond to diverse student needs when developing its curriculum programs and curriculum plan (see Appendix A).
- Our school will comply with all DET guidelines about the length of student instruction time required in Victorian schools.
- There will be a broad offering of programs to meet the demands of students. The Victorian Curriculum will be implemented from Years 7 to 10.
- The Department of Education and Training places a high priority on the teaching of Physical and Sport Education, Languages and EAL. Our school also places a high priority on the teaching of these learning areas.
- School curriculum programs are designed to enhance effective learning.
- Preparing young people for the transition from school into further education and careers is a critical element in senior secondary program.
- Teaching and learning programs will be resourced through Program Budgets.

PROGRAM

- Our school will provide a variety of programs that will address the specific needs of students in relation to gender, special learning needs, disabilities and impairments, giftedness and students from language backgrounds other than English.
- Our school will identify and cater for the different needs of particular cohorts of students when developing its curriculum plan, implementing individual learning plans for students.
- Our school when developing its Curriculum Plan will provide at least 25 hours student instruction per week.
- The Teaching and Learning Committee will determine the curriculum program for the following year, based on student demand and the needs of the school's Curriculum Plan to maintain balance and a broad provision of subject choices. Input will be sought from the relevant staff in the curriculum area when determining programs for the following school year.
- Victorian Curriculum will be used as a framework for curriculum development and delivery at years 7 to 10 in accordance with DET policy and guidelines.
- Every year our school will do an audit of the year 7 to 10 curriculum. This will enable professional learning teams to audit the curriculum of a particular program to see which domains, dimensions and standards of the Victorian Curriculum are currently being addressed. This audit will inform future curriculum planning.

Curriculum Framework Policy

- To facilitate this implementation, course handbooks, assessment criteria and record keeping pro-formas will be produced that reflect the Victorian Curriculum and Victorian Essential Learning Standards.
- The DET requirements related to the teaching of Physical Education, Sports Education, Languages and EAL will continue to be implemented.
- The use of Digital Technologies will be integrated across the curriculum to support the improvement of teaching and learning outcomes.
- Middle Years of schooling approaches will continue to be developed and implemented.
- In developing its curriculum plan the school will provide a broad range of educational pathways to ensure improved student outcomes.
- Curriculum leaders will be required to review their action plan and prepare a comprehensive annual program budget and submit these to School Council.
- The Teaching and Learning Committee will meet regularly (at least twice per term) to track whole school data and identify potential curriculum areas that require focus. Data analysed will include, but is not limited to, NAPLAN, On Track, Post Compulsory Completion and Achievement Information, VCE Data Service and VCE Examination Results Service, school based testing, teacher judgments based on learning outcomes in the Victorian Curriculum. Other data sources will include On Demand Testing and focus groups.
- Student learning outcomes data will be reported in the Annual Report to the School Community provided to the DET, and also available on the State Register maintained by the Victorian Registration and Qualifications Authority and on the school website.
